EDUCATION

2024 - Present

Batangas State University - The National Engineering University, Alangilan Campus

BS Computer Engineering,
Specializing in Artificial Intelligence

TECHNICAL SKILLS

- Embedded Systems & Hardware Prototyping (Arduino, C++)
- Programming Languages: Python, TypeScript, C++
- AI/ML Fundamentals (TensorFlow, image classification)
- Web & Mobile Development (React, Node.js, Flutter, Tailwind)
- Cloud & Real-Time Data (Firebase)
- Circuit Design & Simulation (Multisim, Tinkercad)
- Project & Organizational Leadership

HIGHLIGHTS

- Founded and lead ASTRA Developers, a student-led technology organization operating with the mission of advancing technology and providing opportunity to students
- Built ASTRA Developers' foundational governance infrastructure, including a full Constitution and By-Laws and a structured community platform
- Engineered the hardware prototype for an AI-powered smart waste segregation system recognized as a Technofusion 2026 Hackathon Finalist

LORENZO YOHAN LEONOR

Computer Engineering Student

SUMMARY

Technical leader and Computer Engineering student with hands-on experience across embedded systems, AI/ML development, and full-stack web applications. Founder and CEO of ASTRA Developers, a student-led technology organization built with the goal of advancing innovations within a university. Skilled at translating hardware and software engineering knowledge into functional prototypes, while leading cross-functional teams, managing organizational governance, and driving technical initiatives from concept to execution. Proven ability to balance strategic leadership with direct technical contribution.

LEADERSHIP POSITIONS/AFFILIATIONS

- **Chief Executive Officer/Founder**, ASTRA Developers (A.Y. 2026-2027)
- **Business Manager**, Computer Engineering Students' Organization (A.Y. 2026-2027)
- **Public Relations Officer**, Supreme Student Council (A.Y. 2026-2027)
- **Chairperson on Students' Rights and Welfare**, Supreme Student Council (A.Y. 2025-2026)
- **Committee on External Affairs Member**, College of Engineering - Student Council (A.Y. 2025-2026)
- **Logistics and Events Member**, Computer Engineering Students' Organization (A.Y. 2025-2026)
- **Member**, Association of DOST SEI Scholars - BatStateU Alangilan (A.Y. 2024 - Present)
- **Member**, Institute of Computer Engineers of the Philippines (A.Y. 2024 - Present)
- **Class Representative**, CpE - 1203 (A.Y. 2024-2025)

NOTABLE ACHIEVEMENTS:

- **Best Pitch & Presentation**, Technofusion 2026 Hackathon (Finalist)
- **Merit Scholar**, Department of Science and Technology (2024 - Present)
- **Standard First Aid Provider**, Department of Health (2023 - 2025)
- **Safety Officer 2**, Department of Labor and Employment (2026 - Present)
- **Sustainability Sprite Champion**, College of Engineering - Student Council - Engineering Congress (2024)
- **Third Placer**, EXPOnential: Nexus of the Mind Quiz Bee (2025)
- **Ikaw AMVida Third Placer**, College of Engineering - Student Council - Coefiestahan (2025)
- **Project Head**, Supreme Student Council - reSSConance: The SSC Student Services Initiative (2025 - Present)
- **Project Head**, Supreme Student Council - aSSCist Prints ft. EcoPrints (2025 - Present)
- **Project Head**, Supreme Student Council - eSSCentials (2025 - Present)
- **Facilitator**, Computer Engineering Students' Organization - Breadboarding Competition (2026)
- **Rank 1**, CpE - 1103 Top Performing Students (2025)

PROJECTS

2024 | Engineering Project

Linguify

- Led feature planning for an AI-powered English learning platform offering personalized grammar correction, writing feedback, translation, and conversation practice
- Scoped AI-based feedback functionality for analyzing written responses to support grammar, and communication improvement.

2026 | Hackathon Project

ASTRA Smart Bin

- Engineered the Arduino-based smart bin prototype, handling sensor integration and hardware logic for automated waste detection
- Interfaced the hardware layer with the AI waste-classification model to trigger real-time sorting actions
